Panda Global Protection

Protect your privacy and keep your devices under control

Maximum protection for all your devices

Protect all your devices (PC, Mac®, tablets, smartphones, etc.), plus your data and family with Panda Global Protection. Enjoy the best antivirus with real-time protection against all types of threats. Browse, shop and play online with complete peace of mind. Additionally, manage and locate all your devices from your Panda Account.

Keep your private data secure with file encryption

Secure all your important documents and enjoy peace of mind knowing your information is private. You can also delete files securely, so that they cannot be restored even with forensic tools or hacking techniques.

Optimize your devices

Get rid of any cookies and unnecessary temporary files that could slow down your device. Optimize your Android™ devices, maximizing performance and battery life.

Manage your passwords

With Panda Global Protection, you'll only have to remember one master password to access all your online services. You will never forget a password again!

Protect your family with parental controls

Keep your children safe from inappropriate Web content (pornography, drugs, weapons, etc.), and password-protect access to your apps on your Android™ devices. Give your kids the freedom they need while keeping them protected.

Renewed again

"I have happily used and relied upon Panda Security to protect my home computers over many years. Easy to install and update with seemingly trouble-free and effective protection is most reassuring."

CDB.

Great product

"We've been Panda Antivirus customers for well over 10 years, and have never had any problems. Panda is on every PC, Laptop, Tablet and Mobile Phone in our household and we hardly notice it's running on any of them as it just sits quietly in the background doing an excellent job. Best Antivirus product out there."

Sharman Family.
